

DEL CONCA HOUSE 

A unique connection between humans and planet

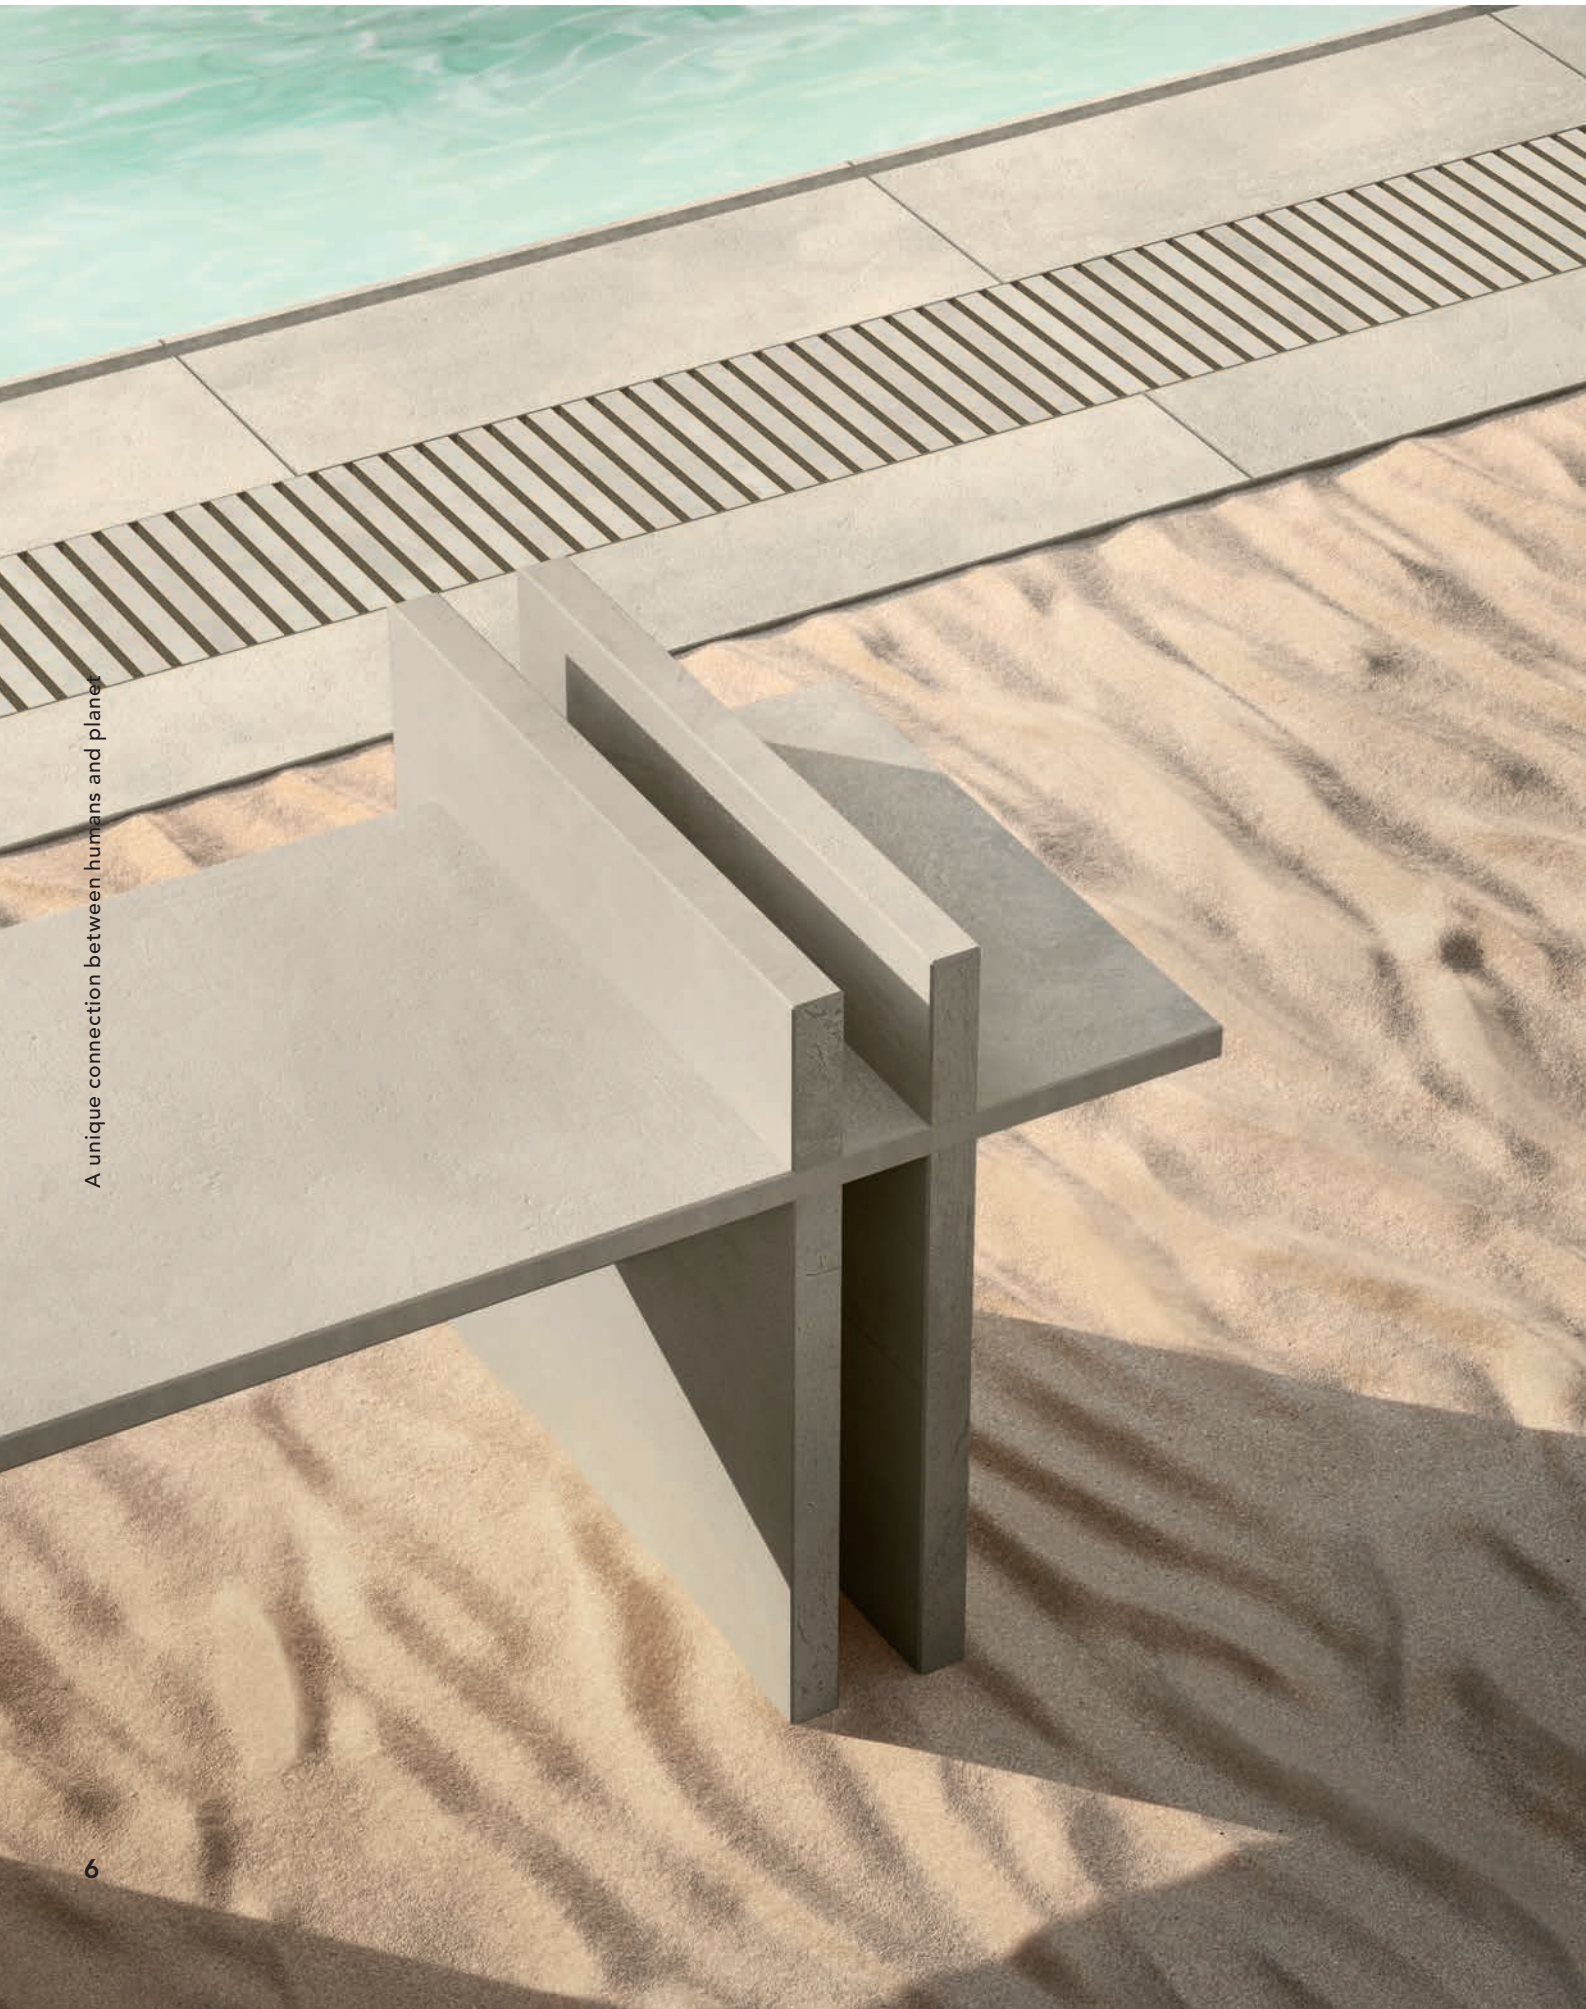

Fluid architecture for a recovered poetics of living

Man, nature and technology meet in a perfectly balanced system, in which the built and natural environments become an integral part of a single, interconnected architectural space, designed in continuous dialogue with the furnishings and fittings which inhabit it.

Architetture fluide per una ritrovata poetica dell'abitare. Uomo, natura e tecnologia si incontrano all'interno di un sistema perfettamente equilibrato in cui ambiente costruito e ambiente naturale diventano parte integrante di un unico e interconnesso spazio architettonico, progettato in continuo dialogo con gli arredi che lo abitano.

New ceramic surfaces take shape according to nature

Ceramics are design at the service of man. Del Conca designs and builds a system of indoor and outdoor interior furnishings and fittings inspired by nature and its elements. Washbasins, tables, seating, tops and wide work surfaces are made out of large, thin porcelain stoneware slabs, a technology that allows for original workmanship in the field of interior design. Interconnected surfaces, from which planes and volumes are created and then moved around in the space in order to design new, one-of-a-kind styles. Cement and marble effect finishes are coordinated to obtain harmonious, textural connections and create an emotive and functional conformity between the colours and the surfaces. The collection is completed with elements designed for the outdoors in which the 20 mm thick porcelain stoneware comes into its own with its technical performance.

Nuove superfici ceramiche prendono forma in accordo con la natura

La ceramica è design al servizio dell'uomo. Del Conca progetta e costruisce un sistema di arredi per interni ed esterni ispirandosi alla natura, ai suoi elementi. Lavabi, tavoli, sedute, top e ampi piani di lavoro sono realizzati con grandi lastre in gres porcellanato dallo spessore sottile, una tecnologia che consente lavorazioni originali nell'ambito dell'interior design. Superfici interconnesse, da cui nascono piani e volumi traslati tra loro nello spazio per disegnare forme nuove ed esclusive. Finiture effetto cemento ed effetto marmo vengono abbinate per ottenere armoniose connessioni materiche, corrispondenze emotive e funzionali tra colori e superfici. La collezione si completa di elementi progettati per l'outdoor in cui il gres porcellanato spessore 20 mm esprime al meglio le sue prestazioni tecniche.

Notes on	Crocus Outdoor bench	Crocus Panca da esterno
	The seat of the HOUCRO120 article is made from a Due2 range product with thickness 20 mm. The sides are covered with porcelain stoneware slabs of 120x260 cm, thickness 6.5 mm, with natural finish.	La seduta dell’articolo HOUCRO120 è realizzata con un prodotto della gamma Due2, spessore 20 mm. I fianchi sono rivestiti con lastre in gres porcellanato 120x260 cm, spessore 6,5 mm, con finitura naturale.
	Cactus Outdoor sink	Cactus Lavabo da esterno
	The HOUCAC065 article is made throughout from porcelain stoneware slabs of 120x260 cm, thickness 6.5 mm, with natural finish.	L’articolo HOUCAC065 è realizzato interamente con lastre in gres porcellanato 120x260 cm, spessore 6,5 mm, con finitura naturale.

Furniture specifications	All Del Conca House articles are constructed using porcelain stoneware ceramic surfaces applied to internal structures made from Profoil panels and/or with steel frameworks. The Profoil construction panel is made of high-intensity extruded polystyrene, coated on both sides with a water and steam-proof membrane. The panel is stiffened, in addition to the waterproof membrane, by the adhesive that is also used for its mounting and is designed and tested for strength and durability. Unlike other construction panels, the Profoil Panel System by Progress is waterproof, provides thermal insulation and is also damp-proof. All articles are produced in Italy.	Tutti gli articoli di Del Conca House sono costruiti utilizzando superfici ceramiche in gres porcellanato applicate a strutture interne realizzate con pannelli Profoil e/o con strutture in acciaio. Il pannello da costruzione Profoil è in polistirene estruso ad alta intensità, rivestito su entrambi i lati con una membrana impermeabile all’acqua e al vapore. Il pannello è irrigidito, oltre che dalla membrana impermeabile, dall’adesivo utilizzato per il suo fissaggio ed è progettato e testato per la resistenza e la durata nel tempo. A differenza di altri pannelli da costruzione, Profoil Panel System di Progress possiede caratteristiche di impermeabilità, isolamento termico e anti umidità. Tutti gli articoli sono prodotti in Italia.
--------------------------	---	--

Custom made projects	The articles in Del Conca House collection can be made using the entire Ceramica Del Conca range of 120x260 cm porcelain stoneware slabs with thickness 6.5 mm. Specifically, the outdoor furnishings can be made using the Due2 range products with thickness 20 mm. A size tolerance varying from 2 to 5 mm must be considered for all articles. The lengths of the various models can be modified or they can be produced to measure, once the request and the overall project have been approved by Del Conca marketing department.	Gli articoli della collezione Del Conca House possono essere realizzati utilizzando l’intera gamma di lastre in gres porcellanato 120x260 cm con spessore 6,5 mm di Ceramica Del Conca. Nello specifico, gli arredi outdoor possono essere realizzati utilizzando i prodotti della gamma Due2, spessore 20 mm. Per tutti gli articoli è necessario considerare una tolleranza dimensionale che può variare dai 2 ai 5 mm. È possibile modificare le lunghezze dei diversi modelli o realizzarli su misura, previa valutazione delle richieste e del progetto complessivo da parte del dipartimento marketing Del Conca.
----------------------	---	---

Order process	To order furnishings from the Del Conca House range, please send an e-mail to marketing@delconca.com, stating the name and code of the article. Specify the Del Conca collection and surface finish to be used and any combination of different collections. Del Conca marketing department is at your service to provide any technical information required.	Per ordinare un arredo della gamma Del Conca House inviare una e-mail a marketing@delconca.com indicando il nome e il codice dell’articolo. Specificare con quale collezione e finitura di superficie Del Conca dovrà essere realizzato e l’eventuale combinazione tra le diverse collezioni. Il dipartimento marketing Del Conca rimane a disposizione per fornire tutte le informazioni tecniche necessarie.
