Ti diamo il benvenuto in questa nuova stagione.
Con un occhio rivolto al nuovo progettiamo collezioni che rivelano ampie possibilità creative per esplorare nuovi e più profondi stili di vita. Ridisegniamo ambienti con piccoli e grandi formati per spazi naturali interni ed esterni; dall'estetica minimale, calda e contemporanea, fino ad abbracciare sapori e lavorazioni artigianali più elevate.

INDEX

Welcome to this new beginning. With a strong focus on the new, we design collections that reveal impressive creative potentials for exploring fresh, more profound lifestyles. We restyle interiors with large or small tiles for natural indoor and outdoor spaces; from a warm, contemporary minimalist aesthetic through to more crafted, sophisticated tastes.

Wir heißen Sie herzlich in der neuen Saison willkommen. Mit dem Blick auf das Neue kreieren wir Kollektionen, die mit einem breiten Spektrum an Gestaltungsmöglichkeiten bei der Interpretation neuer, tiefgreifender Lebensstile aufwarten. Wir verleihen Innen- und Außenbereichen mit kleinen und großen Formaten einen neuen Look, der von einem behaglichen, zeitgemäßen Minimalismus bis hin zu wertigen Designlösungen mit Manufakturcharakter reicht.

Bienvenue dans cette nouvelle saison. Tournés vers l'avenir, nous concevons des collections qui ouvrent de vastes horizons créatifs pour explorer de nouveaux styles de vie, plus profonds. Nous redessinons les espaces avec des formats variés, petits et grands, pour des environnements intérieurs et extérieurs où la nature s'invite. Une esthétique qui oscille entre minimalisme contemporain et chaleur authentique, tout en valorisant le raffinement des savoir-faire artisanaux.

EIN UNTERNEHMEN MIT EINER LANGEN GESCHICHTE
UNE CÉRAMIQUE QUI VIENT DE LOIN

Il Gruppo Del Conca ha una storia affascinante che inizia nel 1962 da un piccolo laboratorio artistico ceramico a Faetano. Questo inizio da favola di altri tempi è solo il primo passo verso la creazione di un grande gruppo industriale. Nel 1979, con una chiara visione imprenditoriale e un'inclinazione verso l'innovazione, nasce Ceramica del Conca che, grazie alla capacità di cavalcare le evoluzioni tecnologiche e di design, diventa punto di riferimento del Made in Italy nel mondo.

Del Conca e Faetano oggi sono in grado di soddisfare, con esclusive linee di prodotto, tutte le esigenze estetiche, qualitative e progettuali richieste dalla moderna architettura.

The Del Conca Group's fascinating history began in 1962 with a small artistic ceramics workshop at Faetano. This storybook beginning was just the first step in the creation of a major industrial group. In 1979, a clear entrepreneurial vision combined with innovative flair in the foundation of Ceramica del Conca, which embraced the latest developments in technology and design to become an emblem of Italian excellence worldwide. Today, Del Conca and Faetano offer exclusive product lines that cover all modern architecture's demands in terms of appearance, quality and design potential.

Die Del Conca Gruppe blickt auf eine faszinierende Geschichte zurück, die im Jahr 1962 mit einer kleinen Werkstatt für Kunstkeramik in Faetano begann. Dieser Anfang, der wie ein Märchen aus alten Zeiten anmutet, war lediglich der erste Schritt auf dem Weg zur Entstehung eines großen Industriekonzerns. 1979 folgte die Gründung von Ceramica del Conca, beruhend auf einer klaren unternehmerischen Vision und innovativem Denken. Im Einklang mit der Entwicklung von Technologie und Design etablierte sich der Fliesenhersteller in Verlauf der Zeit weltweit zu einem Maßstab für das Made in Italy.

Del Conca und Faetano sind heute dank ihrer exklusiven Produktlinien in der Lage, alle ästhetischen, qualitativen und planerischen Anforderungen der modernen Architektur zu erfüllen.

Le Groupe Del Conca possède une histoire fascinante, qui débute en 1962 dans un petit atelier d'art céramique à Faetano. Ce départ, digne d'un conte d'antan, marque le premier pas vers la naissance d'un grand groupe industriel. En 1979, porté par une vision entrepreneuriale affirmée et une recherche constante d'innovation, Ceramica del Conca voit le jour. Grâce à sa capacité à saisir les évolutions technologiques et esthétiques, l'entreprise s'impose rapidement comme une référence du Made in Italy à l'international. Aujourd'hui, Del Conca et Faetano proposent des collections exclusives qui répondent à toutes les exigences esthétiques, qualitatives et fonctionnelles de l'architecture moderne.

designmaterial

Le nostre superfici ceramiche, sintesi fra qualità estetica, cura del dettaglio e design formale rappresentano la migliore espressione dell'evoluzione contemporanea.

Molteplici effetti materici acquisiscono un'inedita tridimensionalità grazie all'ausilio di nuove tecnologie, l'ampia gamma di superfici e formati, dalle cementine ai brick, alle superfici più estese delle lastre 120x278, differenti spessori, decorazioni, costituiscono un insieme variegato di soluzioni a cui attingere con la certezza di una progettualità evoluta.

Our ceramic surfaces, a blend of aesthetic quality, impeccable details and formal perfection, are a superlative response to fast-evolving contemporary requirements.

Multiple material effects acquire an unprecedented three-dimensionality with the aid of new technologies, while the wide range of surfaces and sizes, from cement tiles to bricks to the larger expanses of the 120x278 slabs, different thicknesses and decors, provides a multi-faceted assortment of solutions to support leading-edge architectural design.

Ihre keramischen Flächenbeläge sind als Synthese aus ästhetischer Qualität, akkurater Detailverarbeitung und formaler Strenge der beispielhafte Ausdruck zeitgenössischer Trends.

Mannigfaltige Materialbilder kommen dank neuer Technologien mit einer ausgesprochen plastischen Anmutung daher. Das breit gefächerte Spektrum an Formaten - von Zementfliesen über Bricks bis hin zu den Großformaten 120x278 - Oberflächen, Materialstärken und Dekorationen bietet eine Unmenge von Lösungen im Einklang mit der modernen Planung.

Nos surfaces céramiques, soit des alliances entre qualité esthétique, souci du détail et design formel, représentent la plus belle expression de l'évolution contemporaine.

Nombreux sont les effets de matière se dotant d'une tridimensionnalité originale qui leur est donnée par de nouvelles technologies. L'immense variété de surfaces et formats - des carreaux de ciment aux briques, jusqu'aux grandes dalles de 120x278 cm, sans oublier les différentes épaisseurs et décorations - forme un ensemble disparate de solutions auxquelles recourir pour garantir un pouvoir de créativité immense.

DINAMIKA[®]

deep surfaces

Dinamika, nasce da una ricerca interna per riprodurre superfici oltre la normale tridimensionalità. La riproduzione fedele di marmi e pietre nella loro essenza più naturale, talvolta lavorate anche da sapienti artigiani, mostra nelle nostre ampie superfici effetti di altorilievo preziosi per esaltare inoltre le colorazioni tipiche di questi materiali. Vivere le superfici Dinamika è un'esperienza sensoriale unica che avvolge contemporaneamente il tatto e la vista, immergendoci in un paesaggio naturale.

Dinamika originates from in-house research into the reproduction of surfaces that surpass normal three-dimensionality. In our large surfaces, accurate replication of various types of marble and stone in their most natural form, sometimes also shaped by skilled craftsmen, results in exquisite high-relief effects that also enhance these materials' distinctive colouring. Dinamika surfaces offer a unique visual and tactile sensory experience, evoking immersion in a natural landscape.

Dinamika beruht auf einer Design- und Entwicklungstätigkeit, die auf die Reproduktion von Oberflächen abzielt, die noch plastischer als üblich wirken. Die originalgetreue Nachempfindung von Marmor und Stein in ihrem ureigensten Wesen oder in exquisitesten handwerklichen Verarbeitungen zeigt sich in wertigen, fein ausgearbeiteten Reliefs und bringt die typischen Farben der Materialvorlagen zur Geltung. Das Oberflächendesign von Dinamika spricht auf einzigartige Weise, sowohl visuell als auch haptisch, die Sinne an und entführt sie in eine natürliche Landschaft.

Dinamika repose sur une recherche interne visant à repousser les limites de la tridimensionnalité des surfaces. La reproduction fidèle de l'essence la plus naturelle des marbres et des pierres, parfois sublimée par le savoir-faire d'artisans experts, prend vie sur de grandes surfaces à travers de subtils effets de haut-relief, mettant en valeur les teintes caractéristiques de ces matériaux. Expérimenter Dinamika, c'est vivre une expérience sensorielle unique, où le toucher et la vue se rejoignent pour nous plonger dans un paysage naturel captivant.

Il decoro è stato realizzato con oro giallo e materie metallizzate pertanto il fondo decorato può essere posato solo a parete. Il decoro non è resistente all'usura da sfregamento sia in fase di posa che post posa. Per la pulizia quotidiana si consiglia di utilizzare un panno umido impregnato di acqua o prodotti neutri.

The decoration was created with yellow gold and metallised materials and therefore the decorated background tiles can only be laid on walls. The decoration is not resistant to rubbing wear either during installation or post installation. For daily cleaning, it is advisable to use a wet cloth soaked in water or neutral detergents.

Das Dekor wurde mit Gelbgold und metallisierten Materien hergestellt, deshalb kann die dekorierte Bodenfliese nur an der Wand verlegt werden. Das Dekor ist sowohl bei der Verlegung als danach gegen Scheuern nicht abnutzungsbeständig. Zur täglichen Reinigung wird geraten, ein feuchtes, mit Wasser oder neutralen Reinigungsmitteln imprägniertes Tuch zu verwenden.

Le décor a été réalisé avec de l'or jaune et des matières métallisées; par conséquent, le fond décoré ne peut être posé que sur le mur. Le décor n'est pas résistant à l'usure par frottement pendant et après la pose. Pour le nettoyage quotidien, nous recommandons d'utiliser un chiffon humide imprégné d'eau ou de produits neutres.

Greca FR

Per creare l'angolo è sufficiente tagliare due fondi greca in diagonale "in due direzioni opposte" e accostare i due lati opposti tagliati con il bordo nero. Vedi disegno.

To create the corner, simply remove two Greek backgrounds diagonally and bring the two sides together with black graphics.

Um eine Ecke zu gestalten genügt es, zwei Bodenfliesen mit Mäander diagonal zu verlegen und am dem beiden Seiten an eine schwarze Grafik anzulegen.

Pour créer l'angle il suffit de couper à 45° deux décors Greca en deux sens opposés et placer les deux côtés coupés opposés avec le bord noir. Voir schéma.

DEL CONCA HOUSE

Nuove superfici ceramiche prendono forma in accordo con la natura. La ceramica è design al servizio dell'uomo. Del Conca progetta e costruisce un sistema di arredi per interni ed esterni ispirandosi alla natura, ai suoi elementi. Lavabi, tavoli, sedute, top e ampi piani di lavoro sono realizzati con grandi lastre in gres porcellanato dallo spessore sottile, una tecnologia che consente lavorazioni originali nell'ambito dell'interior design. Superfici interconnesse, da cui nascono piani e volumi traslati tra loro nello spazio per disegnare forme nuove ed esclusive.

New ceramic surfaces take shape according to nature. The ceramic material is design at the service of man. Del Conca designs and constructs a system of indoor and outdoor furnishings taking its inspiration from nature and the elements. Washbasins, tables, seats, counters and large work surfaces made from large, slimline porcelain stoneware slabs, a technology that brings original craftsmanship to the field of interior design. Interconnected surfaces that create planes and volumes which are mixed and matched in the space to design new, one-of-a-kind styles.

Neuartige keramische Oberflächen im Einklang mit der Natur – das ist Design im Dienste der Menschen. Del Conca entwickelt und fertigt ein Einrichtungssystem für Innen- und Außenbereiche, das sich von der Natur und allen ihren Elementen inspirieren lässt. Mit großen Feinsteinzeugplatten in geringer Stärke ausgeführte Waschbecken, Tische, Sitzelemente, Waschtische und großzügige Arbeitsplatten – eine Technologie, mit der sich originelle Projekte für die Innenraumgestaltung umsetzen lassen. So können miteinander verbundene Oberflächen geschaffen werden, die Ebenen und Bereiche mit fließenden Übergängen und neuen exklusiven Formen entstehen lassen.

Des nouvelles surfaces céramiques prennent forme en accord avec la nature. La céramique est le design au service de l'homme. Del Conca s'inspire de la nature et de ses éléments pour imaginer et pour réaliser son système déco intérieur et extérieur. Lavabos, tables, assises, plans de toilette et grandes surfaces de travail sont fabriqués avec de grandes dalles en grès cérame de fine épaisseur, une technologie qui permet de mettre en œuvre des façonnages originaux en décoration d'intérieur. Des surfaces interconnectées à partir desquelles apparaissent plans et volumes qui se déplacent dans l'espace pour dessiner des formes nouvelles et exclusives.

Le nostre piastrelle di I° scelta sono prodotte e scelte in base alla normativa europea EN ed internazionale ISO. Questa significa che il 95% delle piastrelle contenute nelle confezioni di prima scelta devono avere caratteristiche d'aspetto conformi alla norma; pertanto non devono essere perfette (cosa impossibile per un qualunque prodotto industriale) ma devono avere delle tolleranze contenute entro i limiti della norma. Queste tolleranze e quelle relative alle altre caratteristiche fisiche e chimiche del prodotto sono riportate in calce. La valutazione dell'aspetto della piastrella deve essere fatta osservandola perpendicolarmente da 1 m. di distanza. I difetti delle piastrelle possono essere di due tipi: palesi (visibili già prima della posa, come differenza di tonalità, difetti di superficie, rotture, ecc.) o occulti (non visibili prima della posa). I difetti palesi vanno contestati solo prima della posa. Questo consente al produttore di sostituire eventualmente il materiale difettoso. Qualora l'acquirente o l'installatore decidano comunque la messa in opera, la responsabilità del produttore decade. La responsabilità per difetti occulti, purché contestati entro i termini di legge, è del produttore.

Our 1st choice tiles are manufactured and selected according to European EN and International ISO regulations. This means that 95% of the contents of first choice must have appearance characteristics corresponding to the standards. Therefore they must not be perfect (which is impossible for any industrial product) but must have tolerances comprised within the standard limits. These tolerances and those concerning the other physical and chemical characteristics of the product are reported below. The appearance valuation of the tile must be done examining it (perpendicularly) from 1 meter of distance. Defects of tiles can be of two types: noticeable (already visible before laying, such as color differences, surface defects, fractures, etc) or hidden (not visible before laying). Complaints about noticeable defects may be made only before tiles are laid, allowing the producer to replace any faulty material. However, if the buyer or tile layer decides to proceed with laying, the responsibility of the producer is invalidated. Responsibility for hidden defects, if these are notified within the legal time limits, lies the producer.

CONSIGLI PER L'IMPIEGO • RECOMMENDATIONS FOR USE • EMPFEHLUNGEN FÜR DEN GEBRAUCH • CONSEILS POUR L'EMPLOI

I risultati delle prove di laboratorio non sono sufficienti a determinare la durata di un pavimento. A parità di calpestio essa è influenzata oltre che dalle caratteristiche tecniche del prodotto, anche dal luogo di impiego e della maggiore o minore presenza di sostanze abrasive. Pertanto consigliamo di scegliere il prodotto con le caratteristiche di resistenza all'usura sufficienti all'utilizzo in base allo schema che segue ma anche di proteggere, ad esempio con l'utilizzo di zerbini, i pavimenti dalla presenza di sabbia o sostanze graffianti.

No laboratory test, however efficient it may be, is sufficient to determine the durability of a product. Apart from the obvious factor of the number of foot contacts, durability can also be influenced by the technical characteristics of the product, the place of installation and the possible presence of abrasive agents. We therefore recommend not only that products should be chosen with resistance characteristics that are sufficient for the intended use, as shown in the following chart, but also that wherever necessary, floors should be protected against sand, grit and other abrasives by the use, for example, of mats.

Unsere Produkte in 1. Sortierung entsprechen den Europaeischen EN- und den internationalen ISO-Normen. Dies bedeutet, daß 95% des Inhaltes einer als "erste Wahl" deklarierten Verpackungseinheit im Aussehen der Norm entsprechen sollen, also nicht perfekt sein müssen (uner-reichbar für jegliches industriell hergestellte Produkt), jedoch Toleranzen innerhalb der von der Norm vorgelegten Limita aufweisen dürfen. Diese Toleranzen, sowie jene bezogen auf weitere physikalische und chemische Eigenschaften des Produktes werden nachfolgend aufgeführt. Das Ausshen der Fliesen sollte beurteilt werden wenn man sie in 1 m. Entfernung in Senkrechter position betrachtet. Fliesen können Mängel zweierlei Typs aufweisen: offensichtliche, schon vor dem Verlegen zu bemerkende Mängel, wie Tonalität-differenzen, Oberflächenfehler, Bruch usw... sowie versteckte, nicht vor der Verarbeitung zu bemerkende Mängel. Offensichtliche Mängel sind vor dem Verlegen zu beanstanden. Dies erlaubt dem Hersteller eventuell das Mängel aufweisende Material zu ersetzen. Sollten der Käufer oder der Fliesenleger sich dennoch für eine Verlegung des zu bemängelnden Materiales entscheiden, entfaellt die Verantwortung des Produzenten. Verantwortung für versteckte Mängel trägt der Hersteller, jedoch nur bei Beanstandung im Rahmen der gesetzlichen Fristen.

Nos carreaux de 1er choix sont produits et choisis en fonction des normes européennes EN et des normes internationales ISO. Ceci signifie que 95% des carreaux contenus dans les conditionnements de 1er choix doivent avoir les caractéristiques d'aspect conformes aux normes. Ils ne doivent donc pas être parfaits (chose impossible pour tout produit industriel) mais ils doivent avoir des tolérances contenues dans les limites des normes. Ces tolérances et celles relatives aux autres caractéristiques physiques et chimiques du produit sont reportées ci-dessous. L'évaluation de l'aspect du carreau doit être faite en observant celui-ci (perpendiculairement) à un mètre de distance. Les défauts des carreaux peuvent être de deux types: visibles (déjà avant la pose, comme différences de tonalité, défauts de surface, rupture, etc...) ou cachés (non visibles avant la pose). Les défauts visibles ne peuvent être contestés qu'avant la pose. Ceci consent au producteur de remplacer éventuellement le matériel défectueux. Au cas où l'acheteur ou le carreleur décident quand même l'installation, le producteur n'est plus responsable. La responsabilité pour défauts cachés est celle du producteur, à condition que la marchandise soit contestée dans les délais légaux.

Die Resultate von Laborversuchen reichen nicht aus, um die Lebens-dauer eines Fußbodens zu bestimmen. In gleichem Maße wie durch Begehung, ist er - außer durch die technischen Charakteristiken des Produktes - auch durch den Verwendungsort und die dort vorhandene größere oder geringere Menge schleifender Substanzen beeinflußt. Deshalb empfehlen wir die Auswahl des Produktes nach solchen Haltbarkeitscharakteristiken, wie sie das folgende Schema darlegt, und außerdem, die Fußböden z. B. durch Gebrauch von Fußmatten vor Sand oder kratzenden Substanzen zu schützen.

Les résultats des essais de laboratoire ne peuvent à eux seuls déterminer la durée d'un pavement. A parité de passage, celle-ci, outre à dépendre des caractéristiques techniques du produit, dépend aussi du lieu d'emploi et de la présence plus ou moins importante de substances abrasives. Pour cela, nous conseillons de choisir le produit présentant des caractéristiques de résistance à l'usure en rapport avec l'utilisation à laquelle il est destiné sur la base du schéma reporté ci-après et de protéger les pavements, à l'aide de paillassons ou autre, du sable ou de toute substance pouvant les rayer.

- (1) Indica la elasticità del materiale, misurandone il modulo di resistenza alla flessione. Il carico è applicato con un cilindro orizzontale posto centralmente. | It refers to the elasticity of the material, measuring the module of bending strength. The load is applied through a horizontal cylinder placed in the middle. | Biegefestigkeit: gemessen wird es mit enem in der Mitte der Platte gelegten Schwerlastzylinder. | Indique l'élasticité du matériau en mesurant son module de résistance à la flexion. La charge est appliquée avec un cylindre horizontal placé au centre.
- (2) Indica la resistenza, in posa sopraelevata come consigliata da catalogo, ad un carico concentrato applicato centralmente. | It shows the resistance, on raised floor laying as suggested by the catalogue, to a concentrated load applied in the middle. | Bruchlast auf Stelzlager: gemessen wird es mit enem in der Mitte der Platte hoch gelegten Schwerlastzylinder. | Indique la résistance, en pose surélevée comme indiqué dans le catalogue, à une charge concentrée appliquée au centre.
- (3) Indica la resistenza alla rottura da flessione del prodotto nel suo formato intero. Il carico è applicato con un cilindro orizzontale posto centralmente. | It shows the breaking resistance through bending of the product in full size. The load is applied through a horizontal cylinder placed in the middle. | Bruchlast: gemessen wird es mit enem in der Mitte der Platte gelegten Schwerlastzylinder. | Indique la résistance à la flexion du produit dans son format complet. La charge est appliquée avec un cylindre horizontal placé au centre.
- (4) Indica la resistenza allo scivolamento su di un piano inclinato, sia con le scarpe che a piedi nudi su pavimento bagnato. | It shows the slip resistance over an inclined plane, both with shoes or bare feet on wet floor. | Rutschhemmung im Trocken- (mit Schuhen) sowie im Nass-Bereich (Barfuss). | Indique la résistance au glissement sur un plan incliné, à la fois avec des chaussures et pieds nus sur un sol mouillé.
